The authortitle-ibid style

This citation style is a variant of the authortitle style. Immediately repeated citations are replaced by the abbreviation 'ibidem' unless the citation is the first one on the current page or double page spread (depending on the setting of the pagetracker package option). This style is intended for citations given in footnotes.

Additional package options

The ibidpage option

The scholarly abbreviation *ibidem* is sometimes taken to mean both 'same author + same title' and 'same author + same title + same page' in traditional citation schemes. By default, this is not the case with this style because it may lead to ambiguous citations. If you you prefer the wider interpretation of *ibidem*, set the package option <code>ibidpage=true</code> or simply <code>ibidpage</code> in the preamble. The default setting is <code>ibidpage=false</code>.

The dashed option

By default, this style replaces recurrent authors/editors in the bibliography by a dash so that items by the same author or editor are visually grouped. This feature is controlled by the package option dashed. Setting dashed=false in the preamble will disable this feature. The default setting is dashed=true.

Hints

If you want terms such as ibidem to be printed in italics, redefine $\mbox{\tt mkibid}$ as follows:

\renewcommand*{\mkibid}{\emph}
